

GORDON HEAD RECREATION CENTRE – WEIGHT ROOM PROJECT TIMELINE

Spring 2025

- Weight room closure begins on May 12 to address moisture issues.
- Significant abatement work completed.
- Full removal of ceilings and wall surfaces.

Summer 2025

- Comprehensive building assessment confirms true extent of deterioration – full roof replacement is required.
- Reconstruction strategy developed, and detailed design development gets underway.

Fall 2025

- Roof replacement tender issued and awarded.
- Contractor mobilized with accelerated schedule.

Winter 2025/Spring 2026

- Engineered weather enclosure installed, for safe reconstruction.
- Removal of compromised roof, and commencement of rebuild.
- Additional improvements to be completed within the timeline of required work:
 - New flooring, lighting, paint, and sprinkler systems
 - Seismic performance upgrades
